

PARCITYPATE

Improve your city in 3 steps!

1 Connect

Use your smartphone to scan the QR code on the screen to start the web-application. Only one person can control the screen at a time. If someone else is already connected, you will be notified. Don't worry, interaction times are usually short and sweet, so you can just try again in a minute!

2

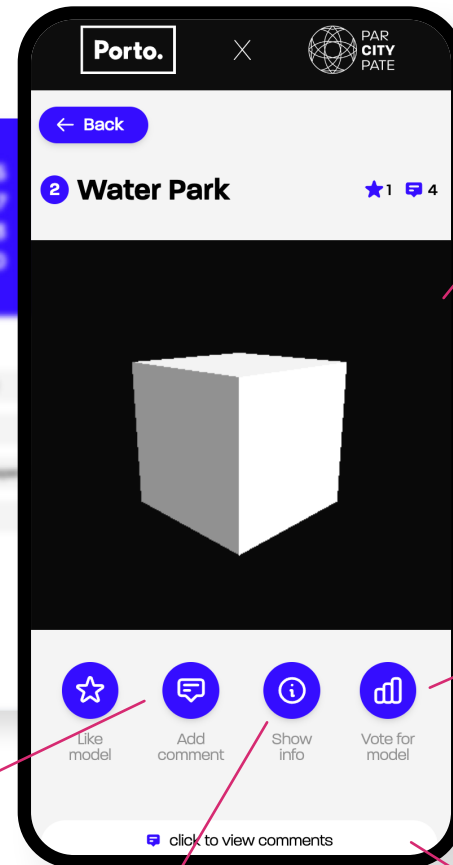

Interact

Select the model you want to see to explore the options.

You can navigate the 3D model on the screen by rotating the cube on your phone. Now you can like, write comments and vote for your favorite model!

You can like and comment as many models as you like. Your likes and comments will be publicly shared

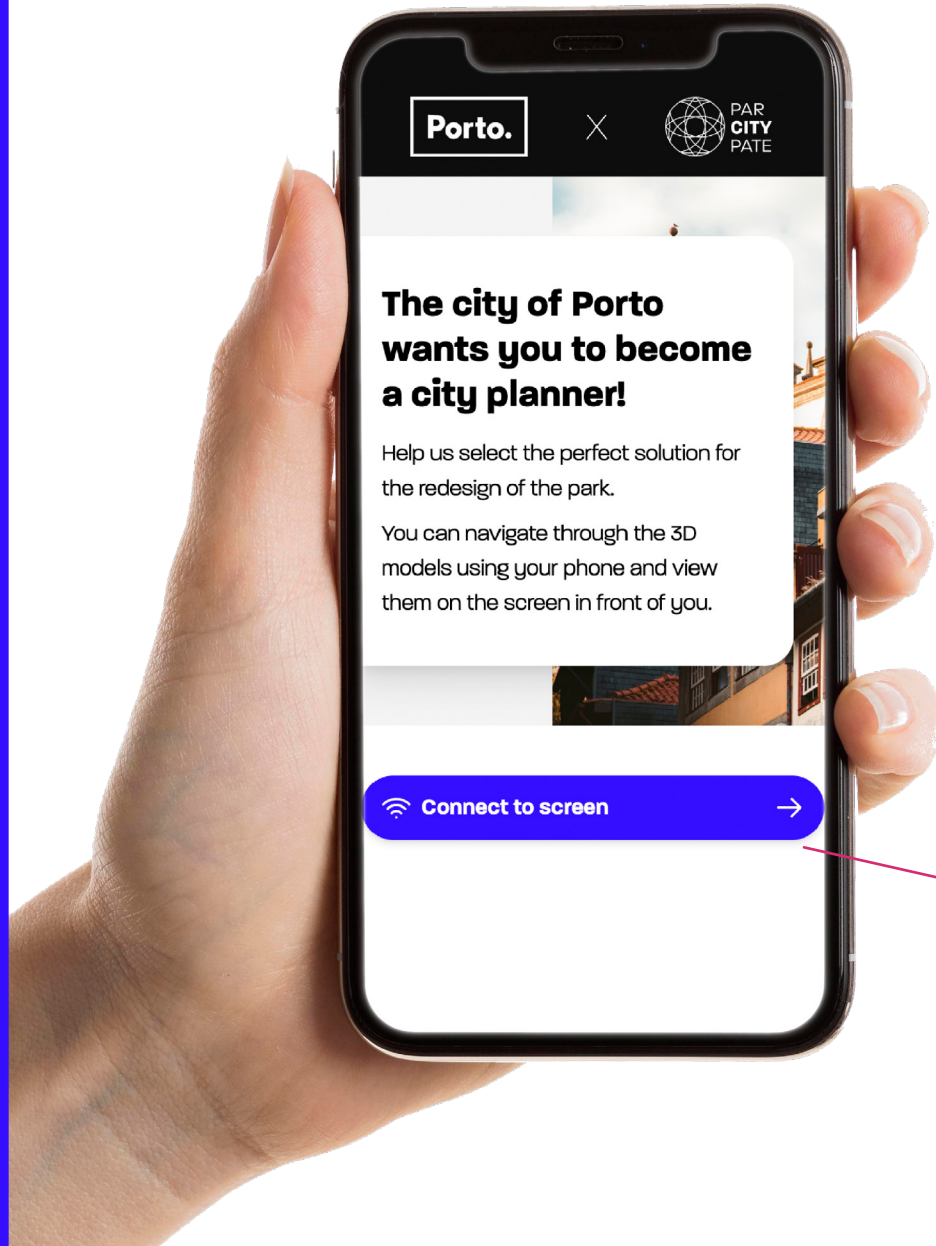

Click here for more information on the idea behind this model

Rotate the cube to control the model on the screen

Click here to vote for your favorite model. You can only choose one and your vote will remain a secret

Click here to see other people's comments

3 Disconnect

To disconnect from the screen, simply close the browser.

To make sure that everyone gets a chance to share their opinion, the connection will be closed automatically, if you do not interact with the application for 2 minutes. To reconnect, simply press the button or reload the page.
